

BIKEFRIENDLY SPACES

CASTILLA TERMAL

Castilla Termal Hoteles supports healthy lifestyle habits to foster the wellbeing of all our customers, so we facilitate spaces to our guests for engaging in certain sports activities.

In this case, in particular, we're talking about the "Bike friendly Spaces", which are areas provided for keeping bikes and carrying out all kinds of maintenance on them.

These spaces, which are locked at all times, have special materials for tuning and maintenance of bicycles:

- 4 wall bike racks with padlock.
- Tools and spare parts for bike maintenance.
- 1 foot pump.
- 1 washing stand.

In addition, as "Bike friendly" establishments, we give visitors information about the surroundings and possible routes: tracks to and from the hotel door itself, either for mountain or road bikes: general tourist information, daily weather forecast and what all our lodgings provide: outdoor pool, gym, spa, treatments, restaurant, possibility of bike hire, etc.
